## Presenter – Stanley Beckett

The ChangeCreator® Formula is the brainchild of Stanley Beckett, co-founder of ChangeCreator® SA, and is the result of more than ten years of intensive study in the personal- and business development field. More than two decades of searching led Stanley to discover his true passion and indeed, power, of understanding and helping shape the human thinking process. It is his unique blend of education in the fields of Astrophysics, IT and Advanced Personal and Business Coaching that has led to the birth of this completely unique, first-of-its-kind program.

The secret has been out for years that one's thinking plays a major role in the decisions you make and, ultimately, your destiny, but up to now no one has been able to uncover the deep secret of what causes thoughts.

With his mind-blowing program, The ChangeCreator® Formula, Stanley will help you discover the very root of your own thinking patterns and even teach you how to “re-program” your thinking on a subconscious level - for true change takes place in the deepest recesses of your mind... That place very few of us are able to access without a bit of help (because we aren't taught this neat little trick in childhood!)

Stanley is also the co-owner and CEO of OMG – Online Mind Graphs, and co-owner of ChangeCreator® SA. He is the first LifeSuccess and Thinking Into Results facilitator in Africa, and studied personally with mentors such as Bob Proctor, T Harv Ecker, Les Brown, and Gerry Robert, to name a few. Stanley is also the creator of world class programs such as “Thinking Into Sales”, “Advanced Thinking”, “The Art of Reading Body Language”, and “The Law of Compensation”. He is the creator of the world's first “Sales Ontology” training program, where he trains individuals in the sales field to become Ontologists.

Furthermore, Stanley is the author of “Liftoff: The secret keys to launching your goals” and the soon to be published books, “The ChangeCreator formula”, and “The ChangeCreator formula for business”. “Liftoff” is the ultimate guide for individuals and companies who want to understand not only how to set worthwhile goals, but more importantly, how to go about achieving them. This book goes deeper into the mindset of a goal achiever than any book has ever gone before, and is an easy to follow guide which will help lift any individual or company to a new level in life.
